

**PROJECT
BUCEPHALUS
5985**

Corrimal
Rotary
Club

Funded by an Australian Government Women In STEM and Entrepreneurship grant

A free robotics class for girls, taught by girls!

Taught by female members of the Project Bucephalus Robotics Team.
200 students over two years, each nominated by their school.
Discovering robotics through games and challenges.
**Developing STEM skills by designing robots to dance, fight sumo matches,
play board games and act like living creatures!**
Students graduate to Project Bucephalus, joining their teachers!
